EDUCATION

EXAMINATION / COURSE	YEAR	INSTITUTION	PERFORMANCE
Bachelor of Technology (ICE)	2021 - 2025	Netaji Subhas University of Technology, New Delhi	7.4 CGPA
Senior Secondary CBSE (Class XII)	2019 - 2020	GD Goenka Public School, New Delhi	73.6%
Secondary CBSE (Class X)	2017 - 2018	GD Goenka Public School, New Delhi	81.8%

WORK EXPERIENCE

Frontend Developer | QuickGick

Jun 2024 – Aug 2024

- Developed a user management web app using **React**, **Redux**, and **Tailwind CSS**, supporting **50+ users** with attendance, leave management, and real-time location tracking via Google Maps API.
- Integrated **Firebase Authentication** with **role-based access control**, enabling 3+ roles for secure privilege separation.
- Enhanced responsiveness across **5+ screen sizes** and major browsers, **boosting usability and engagement by 35%** (client feedback).

PROJECTS

The Wild Oasis – Hotel Booking Platform | Next.js + OAuth [Live Demo](#)

- Engineered a **full-stack cabin booking platform** with **Next.js App Router**, **Supabase**, **Tailwind CSS**, supporting secure reservations, cancellations, and user profiles among 8 cabins.
- Implemented **user authentication** with **Google OAuth 2.0** and middleware-protected routes, ensuring secure session handling.
- Leveraged serverless architecture with **Supabase APIs and Server-Side Rendering**, improving response time by 40% and boosting SEO.

The Wild Oasis – Internal Hotel Operations Management | React + JWT + Supabase [Live Demo](#)

- Built a **full-stack web application** using **React**, **Supabase**, **Styled Components** and **JWT (JSON Web Token) Authentication**, supporting secure **CRUD operations** for 8 cabins, 50+ bookings and staff role-based access.
- Designed an **interactive analytics dashboard** using **Recharts** to monitor **KPIs** such as occupancy rates, revenue trends, and reservations.
- Reduced load time by 30% using **React Query**, modern React patterns (**Context API**, **memoization**, **component composition**) and performance optimization techniques (**code splitting**, **lazy loading**) with an intuitive **dark mode** support.

Auto-Reach – Personalised Outreach Workflow Automation | n8n + JavaScript + Azure

- Deployed **n8n** on **Azure** and automated personalised outreach to **20 contacts** daily by integrating **Gmail**, **Google Sheets and Drive APIs**.
- Created custom **JavaScript** blocks to automate email content generation, data filtering, and file conversion.
- Automated 90% of the outreach process**, enabling scalable and consistent communication.

CardXpert – Credit Card Recommendation Chatbot | Next.js + Generative AI [Live Demo](#)

- Devised an AI-powered web app in **Next.js**, integrating **Google Gemini 1.5 Flash API** for personalised credit card recommendations.
- Crafted a **multifactor recommendation engine**, improving relevance by 25% over rule-based methods.
- Delivered a **responsive interface** with 20 credit card options, **< 500ms response time**, and 100% API fallback.

PUBLICATIONS

Emotion-H Net: A Hybrid Transformer Architecture for Emotion Recognition via Multi-Feature Signal Fusion

Accepted at the 6th International Conference on Data Sciences and Applications (ICDSA 2025), Malaviya National Institute of Technology,

Jaipur, India [Conference Paper Link](#)

Jul 2025 – Aug 2025

- Innovated a **lightweight Transformer-based** deep learning model (~5 MB, 150,000 parameters) for **emotion recognition**, achieving **86.8% accuracy**, **AUROC 0.977**, **precision 0.87**, **recall 0.87**, and **F1 score 0.868** on the DEAP dataset.
- Built the end-to-end pipeline (**preprocessing**, **feature engineering**, **feature selection**, **imbalance handling**), delivering **10–15% improvement** over traditional models across all evaluation metrics.

SKILLS

- Programming Languages:** C, C++, JavaScript, Python, and SQL.
- Frontend Technologies:** React, Next.js, HTML5, CSS3, Tailwind CSS, Redux, and React Query.
- Backend and Databases:** Node.js, Express.js, PostgreSQL, MongoDB, MySQL, and Supabase.
- Cloud and Infrastructure:** Git, GitHub, Google Cloud, Azure, Netlify, Vercel, n8n, Vite, and Parcel.
- CS Fundamentals:** Data Structures and Algorithms (DSA), System Design, and DBMS.
- AI and ML:** TensorFlow, NumPy, Pandas, Deep learning, Generative AI, and Transformers.
- Additional Skills and Tools:** UI/UX design, SEO, Canva, Figma, MS Office, MATLAB, and Simulink.

POSITION OF RESPONSIBILITY

Executive Committee Member – IEEE NSUT

Nov 2022 – Jun 2024

- Organised 3+ **hackathons** and 2 technical workshops with over 200+ participants to foster student creativity and technical skills.

Winter Sports – NSUT Sports

Jan 2023 – Feb 2024

- Conducted basketball tournaments with 250+ players across 20+ teams, ensuring smooth scheduling and operations.

EXTRACURRICULAR ACTIVITIES

- Represented NSUT in **3 intercollegiate basketball tournaments**, demonstrating teamwork, discipline, and leadership in competitive settings.
- Secured **2nd and 3rd prizes in inter-school painting, sketching, and craft competitions**, showcasing creativity and strong artistic skills.
